1. Introduction

1.1. About your proposal

All documentation relative to the call is provided on the following EN-UAC website page: <https://jpi-urbaneurope.eu/calls/enuac/>.

Prior to submission, the project coordinator must prepare a **project proposal document**, to be submitted in PDF format document following the template available on the call page¹.

Some agencies requires an additional document (Part C...) to be included in the submission documents for the international submission. Please make sure that you have to fulfill this condition or not according to which agency you or one of your partner formulates a funding demand, in order to ensure the acceptability of your proposal. The templates of these documents are available on the call page².

Keep in mind that each funding organisation has its own funding criteria and regulations, which are mentioned in the call announcement. The financial plan submitted at the transnational level is for evaluation purposes only. The presentation of the financial plan to be submitted at the national level, for all proposals or for selected projects only depending on the funding organisation, might differ depending on the funding organisation (different categories of expenses, details about the distribution over time...).

1.2. About the submission system

The EN-UAC Call 2020 electronic submission system is based on the French National Research Agency (ANR) electronic submission platform (<https://aap.agencerecherche.fr/>). The present document is designed to guide you through the submission process and ensure a smooth submission.

Note that some features of the submission platform are not used for this call and that some fields in the interface can be safely ignored. This is for example the case of the detailed financial information, which is instead provided by uploading the aforementioned financial plan.

Each modified page in the submission platform must be saved (using the “Save” button) before going to another page.

1.3. Roles in the submission process

A Consortium is composed of project Partners represented by Principal Investigators (PIs). The project coordinator creates the proposal in the submission system and adds the other project partners. The partner PIs are automatically informed by email. The email invites them to log into the system in order to complete, check or modify the information provided by the coordinator about the consortium. It is the responsibility of the coordinator to ensure that the partner information is properly filled in. When the proposal is complete, the coordinator can lock it, which prevents the

²https://jpi-urbaneurope.eu/app/uploads/2020/06/EN-UAC_National_Forms_C_full_proposal_phase.zip

other partners to update their information. Only the coordinator is allowed to modify the project-level information.

2. How to connect

The coordinator and the other PIs can connect to the website in the following way.

2.1. Submission website

The electronic submission system is available at the URL that has been communicated to the coordinators of the consortia which passed the 1st step of the call.

NOTE: The user interface is bilingual (French and English). Click on the flag on the upper-right side of the screen to reach the pages in English. You can change the interface language at any time.

2.2. Create an account

The welcome page of the submission system is shown below. Fill in the form with your personal information (Last name, First name, Email address).

If you already have an account on the ANR submission website, you can go directly to the authentication page.

If you have forgotten your password, you can ask for a new one on the authentication page.

Welcome to the ANR's online project submission platform.
You selected the Call:
EN-UAC (step2) 2020

- To create a proposal:
 - You first have to register. Please fill in the following fields and then validate:
If you already have an account on the submission site, we advise you to use the same email address to avoid the multiplication of credentials.

Email address:

- Following the validation:
 - If you don't have already an account on the submission site, a confirmation email and an activation email will be sent to you.
 - If you already have an account on the submission site, only a confirmation email will be sent to you.
- Please access then the [authentication page](#).

Some tips to help you during the submission stage

- Each modified page must be saved before going to the next one. If you do not click on save, all the information you entered after the last save will not be preserved.
- Be careful about the Call closing date and time. No changes will be possible after the submission deadline.

We thank you for your interest and wish you a successful submission.

2.3. Activation of your account (if you have no account yet)

An email will be sent from the website in the following format (if you do not receive the email, please check your spam box):

2.5. Notification from the system (if you already have an account)

An email will be sent from the website in the following format (if you do not receive the email, please check your spam box):

FROM: SIM ANR simnoreply@agencerecherche.fr

SUBJECT: Création d'un nouveau projet / Creation of a new proposal

Dear Madam, dear Sir,

You indicated you wish to submit a proposal for the call of proposals "EN-UAC (step2)".

Please log in to the submission platform of ANR, using the username and password you already used for your previous connections. If you forgot the password, you can reset it from the authentication page.

The address is: <https://aap.agencerecherche.fr>.

As proposal coordinator, you must register the partners of this proposal in the tab "Partnership and Tasks".

Do not forget to specify the funding agency of the partner. If the partner does not request funds from an agency, select the value "On own funds" and you won't have to fill the fields regarding funding.

If you do not maintain your wish to submit, simply ignore this message.

Yours sincerely,

The management team,

The French National Research Agency

2.6. User role

After validation, you are asked to choose your user profile:

- Project Coordinator (can modify all the information)
- Project Partner (can modify its own information)

To create a new submission, select "Project Coordinator" and click on the "Access" button.

NOTE:

This list is determined according to the French terminology of research and innovation bodies. Concerning the public bodies, notably universities, in France, we used to talk about “Public Laboratory” as long as we talk about a facility in a university/a faculty on public funds that provides controlled conditions in which scientific or technological research, experiments, and measurement may be performed.

If you want to refer to a university with this background, please choose “Public laboratory”. If you are a university on private funds, please choose “Other private”.

3.3. Information about your submission

Once you have provided the project identification information, you will have access to the main online submission page composed by several tabs gathering all the information needed for the evaluation of the project (from the left to the right side of the screen):

Under this tab, the coordinator can fill in the consortium composition and provide basic information about each partner. Partners can be added, edited and deleted.

Partnership

The project coordinator specifies each partner and the principal investigator (PI) of each partner.

Any PI indicated in the table below has access to the project, his/her login being the registered email address. If necessary, he/she can generate a new password from the home page.

Note that users with only the scientific team member role do not have an account to log into the application.

At each change made, the PIs of the concerned partners are informed by e-mail.

The tab also provides information on the proposal validity. Alerts shown in red are blocking issues for the submission.

A confirmation email is sent to the coordinator at call closure.

The closing date for call for proposals is **22/09/2020 until 13:00** (DD/MM/YYYY; Current local time in Paris, France)

Project status : Submitting

Your application will automatically be considered submitted if all the following conditions are met :

- the scientific document has been submitted
- the grant amount requested for the project is non-zero at the closing of the call for proposals
- the partners signed the on-line commitment

Only information entered on the submission website by the call for proposals closing date will be considered.

An electronic confirmation will be sent to the coordinator on the call for proposals closing date.

Coordinators are asked to lock their projects by the closing date.

The project may be unlocked by the coordinator prior to the closing date if additional changes are necessary.
