SHORT DESCRIPTION

A short description (up to 5 pages) in English, including the following information:

- 1) scientific goal of the project (description of the problem to be solved, research questions and hypotheses)
- 2) significance of the project (state of the art, justification for tackling a specific scientific problem, justification for the pioneering nature of the project, the impact of the project results on the development of the research field and scientific discipline);
- 3) concept and work plan (general work plan, specific research goals, results of preliminary research, risk analysis);
- 4) research methodology (underlying scientific methodology, methods, techniques and research tools, methods of results analysis, equipment and devices to be used in research);
- 5) project literature (a reference list for publications included in the project description, with full bibliographic data).

The above-mentioned sections, including references to literature, are required. Failure to include any of them shall form grounds for rejection of the proposal on formal grounds.

The description must be delivered as PDF file (up to 10 MB).
Text limit: 5 pages, A4.
Recommended formatting: top-bottom margins: 1.5 cm, left-right margins: 2 cm, font: Times New Roman or equivalent, font size: at least 11, interline: single.

NOTE!
Experts evaluating the proposal at the first stage of merit-based evaluation have no access to the detailed project description, therefore this description should include information necessary for the project to be evaluated.

DETAILED DESCRIPTION

A detailed description (up to 15 pages) in English, including the following information:

- 1) scientific goal of the project (description of the problem to be solved, research questions and hypotheses)

NOTE!
Experts evaluating the proposal at the second stage of merit-based evaluation have no access to the short project description, therefore this description should include information necessary for the project to be evaluated.

ETHICAL ISSUES

Before filling out the form, read the Guidelines for applicants to complete the Ethics Issues form in the research project and Code of the National Science Centre on research integrity and applying for research funding, both of which can be found in the call announcement.

To be filled out in English. If you flagged any of ethical issues included in the Ethics Issues Table, please describe measure taken to ensure that the research is carried out conforming to the common law (if applicable) and rules of good practice in the respective domain/discipline. Please refer to each identified issues separately.

1.	Studies on human embryos or human embryonic and fetal tissue
	Does your research involve the use of human embryos? (YES/NO)
	Does your research involve the use of human embryonic or fetal tissues/cells? (YES/NO)
	Does your research involve Human Embryonic Stem Cells (hESCs)? (YES/NO)
2.	Humans
	Does your research involve human participants? (YES/NO) <i>If YES, fill in section 4.</i>
	Does your research involve physical or psychological interventions on the study participants? (YES/NO) <i>If YES, fill in section 4.</i>
	Does your research involve processing of genetic information? (YES/NO) <i>If YES, fill in section 4.</i>
	Is your research considered as medical experiment under the Act of 5 December 1996, the professions of doctor and dentist? (YES/NO) <i>If YES, fill in section 4.</i>
	Does the proposed research include applicable non-commercial clinical trial that must be registered in Central Register of Clinical Trials (https://www.clinicaltrialsregister.eu/) under the Act of 6 September 2001 (as amended) Pharmaceutical Law or the Act of 20 May 2010 (as amended) on medical devices? (YES/NO) <i>If YES, please justify non-commercial aspect of your research and fill in section 4..</i>
3.	Human cells/tissues
	Does your research involve human cells or tissues (other than from Human Embryos, i.e. section 1) commercially available? (YES/NO)
	Does your research involve human cells or tissues obtained within the project or from another project, laboratory or institution (non-commercial)? (YES/NO)
4.	Personal data
	Does your research involve personal data processing? (YES/NO)
	Does your research involve further processing of personal data (secondary use) from other sources outside the research entity? (YES/NO)
5.	Animals
	Does your research involve vertebrate animals or cephalopods? (YES/NO)
	Does your research involve the use of animal biological specimens (e.g. blood, urine or others)? (YES/NO)
	Does your research involve animal cells or tissues commercially available? (YES/NO)

6.	Scientific collaboration with countries outside the European Union				
	In case non-EU countries are involved, do the research-related activities undertaken in these countries raise potential ethics issues? (YES/NO)				
	Do you plan to use local human, cultural or natural resources (e.g. animal and/or human tissue samples, genetic material, live animals, human remains, materials of historical value, endangered fauna or flora samples, etc.)? (YES/NO)				
	Do you plan to import or export any material from non-EU countries into the EU? (YES/NO) <i>For data imports or exports, please fill in also section 4.</i>				
	<i>For imports or exports concerning human cells or tissues, fill in also section 3.</i>				
	If your research involves low and/or lower middle income countries, are benefits-sharing measures foreseen? (YES/NO)				
	Could the situation in the country put the individuals taking part in the research at risk? (YES/NO)				
7.	Environment, Health and Safety (including genetically modified material)				
	Does your research involve the use of organisms and microorganisms, tissues or cells genetically modified (GMO, GMM)? (YES/NO) <i>For research involving animal experiments, please fill in also section 5. For research involving genetic modification of human material, please complete also section 1 or 3.</i>				
	Does your research deal with endangered fauna and/or flora and/or protected areas? (YES/NO) <i>For research involving animal experiments, please fill in also section 5.</i>				
	Does your research involve the use of elements that may cause harm to humans, including research staff? (YES/NO) <i>For research involving human participants, please fill in also section 2.</i>				
8.	Cultural heritage				
	Does the research involve the usage of cultural heritage resources, such as humans, flora, fauna, their material remains, tangible and intangible cultural achievements or sites protected due to their cultural value? (YES/NO)				
9.	Abuse and dual use				
	Does your research involve dual-use items in the sense of Regulation 428/2009, or other items for which an authorisation is required? (YES/NO)				
	Does your research output have the potential for malevolent/criminal/terrorist abuse? (YES/NO)				
Description of the measures taken to ensure that the research will be carried out in compliance with the rules of good scientific practice in the given field/discipline. Information on any permissions already issued or description of how the relevant requirements will be fulfilled [in English] up to 10 000 characters					
A detailed justification that research includes clinical trial related to a medicinal product or a medical device is of non-commercial nature [in English] up to 2500 characters					
I hereby declare that: - if any approvals, opinions or permits of competent authorities/committees are required for the research, I shall obtain them beforehand; - I am aware of my obligation to provide the NCN with the approvals, opinions and permits required for the project with the annual and final reports; - I am also aware that if a research project is carried out without the required approvals, opinions and permits, there is a possibility that it will not be settled and the funds will have to be reimbursed in their entirety or in part.					<i>Declaration to be made by the PI even if there are no ethics issues when the proposal is submitted and no research is planned that would require any approvals, opinions or permits.</i>
ABSTRACT					
The description in English, up to 4500 characters, with spaces (plain text - no formulas, no graphics), shall include the most important information on the project allowing the experts requested to review the project to assess their competencies to perform the review.					
ABSTRACT FOR THE GENERAL PUBLIC					
The description for general public must be in Polish and in English. The language versions must be identical. The descriptions must be attached as two separate PDF files (up to 10 MB). PRINCIPAL INVESTIGATOR (PI) - INFORMATION

Professional title/academic degree, name and surname

1. Contribution to the project
Nature of contribution to the project, entity, scope of work [in English]

2. PhD

Is the Principal Investigator a PhD holder? (YES/NO)
Pursuant to the terms of the call, the principal investigator must hold at least a PhD degree conferred within 3 years before submitting the proposal or shall have a PhD degree conferred by 30 June 2021.

If YES:
year of PhD award, academic branch / branch of art in Polish, academic branch/branch of art in English, academic discipline/discipline of art in Polish, academic discipline / discipline of art in English, awarded by: Entity's name in the original language [transcription to Latin], entity's name name in English
Document confirming that the principal investigator has earned a PhD degree .
Attach a document signed by hand and scanned OR signed by qualified electronic signature in the PAdES format, as a PDF file.

If NO:
Declaration: The PI shall be awarded a PhD degree by 30 June 2021.
A declaration by the PhD supervisor or certificate of the forecasted award date of the PhD issued by a competent institution.
Attach a document signed by hand and scanned OR signed by qualified electronic signature in the PAdES format, as a PDF file.

3. Information on career breaks – qualification period

*One can enter information on the career breaks by selecting:
I wish to include information on PI's career breaks extending the qualification period
If this option is chosen, the following fields will appear:*

Long-term (over 90 days) evidenced sickness benefits or physiotherapy benefits on account of unfitness for work collected after the day of being awarded a PhD degree. Number of days.

Both maternity and paternity:
Parental leaves granted pursuant to the Labour Code. Number of days.

For maternity only:
Children born/adopted. Number of children.
*The period may be extended by 18 months for every child born or adopted.
If the number of children is quoted as well as the number of days of parental leave granted pursuant to the Labour Code, the system will choose whichever option is more advantageous for the PI to account for her career break.*

4. Information on career breaks – academic and research track record

*One can enter information on the career breaks by selecting:
I wish to enter information on career breaks allowing for the period of scientific achievements to be extended
If this option is chosen, the following fields will appear:*

Long-term (over 90 days) evidenced sickness benefits or physiotherapy benefits on account of unfitness for work collected over a period of 10 years before the proposal submission year. Number of days.

Both maternity and paternity:
Parental leaves granted pursuant to the Labour Code. Number of days.

For maternity only:
Children born/adopted. Number of children.
*The period may be extended by 18 months for every child born or adopted.
If the number of children is quoted as well as the number of days of parental leave granted pursuant to the Labour Code, the system will choose whichever option is more advantageous for the PI to account for her career break.*

6. Young researcher (this section will only appear if according to the year of doctoral degree conferment it cannot be clearly determined whether or not the PI is a young researcher for the purposes of the statutory definition)

Please help us to establish whether the PI fulfils the criterion of a young researcher. The information below is for statistical purposes only and shall not affect the eligibility for the call or any part of the proposal form.

PhD data

*One can enter information on the career breaks by selecting:
I wish to include information on PI's career breaks within 7 years after being awarded a doctorate
If this option is chosen, the following fields will appear:*

DATA MANAGEMENT PLAN [in English]		
<p>Before filling out the form, read the Guidelines for completing the data management plan for a research project that can be found in the call announcement. To be filled out in English. The NCN recognises that some projects will not generate, re-use or analyse research data and similar materials. In these cases, a short explanation is required as an answer to the question 1.1. How will new data be collected or produced and/or how will existing data be re-used. Under each question, a text box for description (up to 1000 characters).</p>		
1.	Data description and collection or re-use of existing data	
1.1	How will new data be collected or produced and/or how will existing data be re-used?	
1.2	What data (for example the kinds, formats, and volumes) will be collected or produced?	
2.	Documentation and data quality	
2.1	What metadata and documentation (for example methodology or data collection and way of organising data) will accompany data?	
2.2	What data quality control measures will be used?	
3.	Storage and backup during the research process	
3.1	How will data and metadata be stored and backed up during the research process?	
3.2	How will data security and protection of sensitive data be taken care of during the research?	
4.	Legal requirements, codes of conduct	
4.1	If personal data are processed, how will compliance with legislation on personal data and on data security be ensured?	
4.2	How will other legal issues, such as intellectual property rights and ownership, be managed? What legislation is applicable?	
5.	Data sharing and long-term preservation	
5.1	How and when will data be shared? Are there possible restrictions to data sharing or embargo reasons?	
5.2	How will data for preservation be selected, and where will data be preserved long-term (for example a data repository or archive)?	
5.3	What methods or software tools will be needed to access and use the data?	
5.4	How will the application of a unique and persistent identifier (such as a Digital Object Identifier (DOI)) to each data set be ensured?	
6.	Data management responsibilities and resources	
6.1	Who (for example role, position, and institution) will be responsible for data management (i.e the data steward)?	
6.2	What resources (for example financial and time) will be dedicated to data management and ensuring the data will be FAIR (Findable, Accessible, Interoperable, Re-usable)?
